Fun - there's nothing quite like it! The new Škoda Felicia Fun is a totally unique, sporty, lively car built especially for people like you.

What makes the Felicia Fun so special is its clever seating arrangement. Simply release two catches and suddenly you have two extra seats, perfect for taking friends along with you.

A strong, full-width screen locks into place as you fold out the extra seats, so your passengers are assured of practical protection whilst still enjoying the fresh air.

In a cheery yellow colour scheme the Felicia Fun always looks ready for action, so there's a zippy 1.6 engine with multipoint fuel injection to make sure that the performance lives up to its looks.

So do you want two seats or four? You don't have to decide; just choose the Felicia Fun.
